

Pre- Dioxin 2018 Students' Symposium

PLEASE SHARE THIS INVITATION
WITH YOUR STUDENTS!

Dear Colleague,

You are invited to submit an Abstract to the Pre- Dioxin 2018 Students' Symposium, "All POPs & Pseudo-POPs" on Saturday (25 August) prior to the main Dioxin 2018 Symposium in Kraków, Poland. Abstracts (for oral or poster presentation) submitted for the Students' Session will be reviewed independently of the abstracts put forward to the core Dioxin 2018 Symposium.

The Students Session will be held at the conference venue which is located very close to the Old Downtown Kraków area. Only students may present at this gathering and one submission per registered student is permitted at this time. The oral presentation is to be 20 minutes in length (including questions). Ideally, all submissions are to be a one page abstract or a four page short paper (see the guidelines established by the meeting organizers). In addition to the oral and poster presentations, there will be a short (5 min) poster highlight session. This is to consist of short oral presentations that are intended to give young researchers the opportunity to present their work and initial results with an opportunity to receive constructive feedback. Awards for the best student presentation (oral or poster) will be granted to students for outstanding presentations at the Students Symposium. Your short abstract can be considered as accepted unless you receive a notice of rejection. Lunch and refreshments will be provided.

We welcome Abstracts that highlight new findings on analytical methods and techniques, human and wildlife exposure, suspected and known toxic sources, environmental fate and exposure pathways, body burdens and patterns (isomer specific), spatial and temporal trends, and health effects.

Kindly let us know in advance if you plan to submit an Abstract for consideration as an ORAL presentation.

NOTE: Participation in the Students Session is free of charge for student presenters who are registered for the Dioxin 2018 Symposium, and have paid applicable registration fees. Other attendants – please see details at <http://dioxin2018.org/>.

Dioxin 2018 Abstract Submission – Deadline for an abstract submission is May 11, 2018. Your abstract can be considered as accepted unless you receive a notice of rejection.

We look forward to hearing from you -- and hope to see you at Dioxin 2018 in Kraków.

Any supporting company or sponsor of the Students Session is welcome – a platform for a company display and inserts will be available.
