**Do you require High Quality Certified Reference Standards for Environmental Analysis?**

For well over 35 years, Wellington Laboratories Inc. has been internationally recognized as a trusted source of high quality reference standard solutions for use in environmental/analytical testing.

We offer an extensive inventory of individual certified reference standards and solution mixtures of native and mass-labelled halogenated organic compounds including polychlorinated dibenzo-*p*-dioxins, polychlorinated dibenzofurans, polychlorinated biphenyls, halogenated flame retardants, and per- and polyfluoroalkyl substances.

We also offer a variety of calibration sets and support solutions designed to be used for common regulatory methods or modified in-house methods, and are accredited to ISO 9001:2015, ISO/IEC 17025:2005, and ISO 17034:2016.
